

Access Health Vancouver

Access Health Vancouver (AHV) combines a number of the world’s leading specialist organizations. Together, AHV has the local talent and global expertise to successfully design, finance, construct, and maintain the new state-of-the-art Gordon & Leslie Diamond Health Care Centre.

The AHV team includes the Macquarie Group; ABN AMRO Bank N.V.; PCL Constructors Westcoast; IBI Group/Henriquez Architects in Joint Venture (IBI/HPA); and Brookfield LePage Johnson Controls (BLJC).

CONSTRUCTION LEADERS

Construction: PCL Constructors Westcoast is a member of the PCL family of companies—Canada’s leading construction contractor and also one of North America’s most prolific health care construction providers. In Canada, PCL is building, or has completed, health care projects in eight provinces and the three territories. Examples of recent health care projects include the Ambulatory Care Expansion at Women and Children’s Hospital in Vancouver, the Health Sciences Centre in Winnipeg, the recently completed Regina Hospital, the Walter C. Mackenzie Hospital in Edmonton, the Guelph General Hospital Redevelopment and the R. Fraser Elliot Building at Toronto General Hospital.

Design: Architectural design and functional layout is to be provided by IBI/HPA, an award-winning Vancouver based design firm established in 1992. The IBI/HPA Healthcare Group includes planners, architects and engineers actively engaged in the design and construction of several of British Columbia’s most innovative institutional projects including the new BC Cancer Research Centre and the Ambulatory Care Building at BC Children’s Hospital, recipient of a 2004 Lieutenant Governor’s Award.

Facility Maintenance Services: BLJC is a leading facilities maintenance services provider in Canada servicing a number of health care and public sector clients across Canada, including BC Buildings Corporation, Royal Ottawa Hospital, the Government of Canada and others. BLJC will be supported by Johnson Controls Inc (JCI), BLJC’s majority shareholder. JCI is a leader in the development, integration and installation of building automation systems and controls. JCI’s recent experience includes the Royal Inland Hospital in Kamloops, and St. Johns Rehabilitation Hospital in Toronto.

Project Development, Finance & Ownership: The Macquarie Group (Macquarie) is a diversified international provider of financial and investment banking services, headquartered in Sydney Australia. Macquarie is a recognized leader in the infrastructure sector globally and currently manages more than 90 diverse infrastructure businesses in 20 countries with total equity under management of C\$26 billion. Macquarie acquired an 81% interest in Access Health Vancouver from ABN AMRO in December 2005 and has assumed responsibility for the overall project management of the AHV team.

ABN AMRO is one of the world’s largest financial institutions and has been operating in Canada for over 50 years. ABN AMRO has significant public-private partnership structuring and underwriting experience, having successfully completed over 35 partnership projects in different global markets. ABN AMRO’s integrated funding model means it is able to develop, arrange and finance all components of infrastructure projects, covering both the construction and long-term operating phases.
